WHY MICE LEAVE HOME

In many respects mice are like men and often just as foolish. Many men will go "to the end of the world" for a girl, at least that is what they say. But the mice in this story go clear to the moon when they think it is made of green cheese.

Farmer Al Falfa and his cat are very much annoyed by the animals and this is their scheme to send the mice away.

However the mice soon devour the mass of green cheese and fall right back to earth again and to make matters worse they land right in Al's yard. Proving that "Whatever goes up must come down".
